WeTraffic 496
EasyClean

Anti-skid and easy to clean

WeTraffic 496 EasyClean

WeTraffic 496 EasyClean is designed as a versatile PMMA-based surfacing for bituminous and mineral substrates. The new formulation delivers a continuous surface with a satin sheen that is easy and straightforward to clean. WeTraffic 496 is a single-layer, abrasion-resistant coating that is particularly suitable for slow traffic and for parking bays.

Properties

- ☑ Fully cured within 30 minutes
- ☑ Easy to clean
- ☑ Abrasion-resistant
- ☑ Range of anti-skid properties
- ☑ Single-layer coating on asphalt
- ☑ Any RAL colour

Areas of application

- ➲ Parking bays
- ➲ Entrance areas, e.g. shopping malls
- ➲ Pedestrian guidance systems in multi-storey car parks
- ➲ Surface markings
- ➲ Industrial flooring
- ➲ Refurbishment of mastic asphalt surfaces
- ➲ Surfacing for stairs
- ➲ Pedestrian underpasses

PMMA-based surfacing systems cure very rapidly. Consequently they can be used to refurbish areas within an extremely short time, without major traffic disruption and with the car park continuing to operate.
